

TOURISM TRADE CHECKLIST

Tourism
Trade
Checklist
NEW ZEALAND

The Tourism Trade Checklist, formerly known as TECNZ's Health & Safety Checklist, is the 'go-to' place for ITOs and offshore trade when sourcing all business compliance information for tourism operators.

Benefits for tourism operators

- Transparency** of your businesses compliance clearly visible to ITOs
- Be recognised** as a Safe Travel business operating safely within the NZ Government COVID-19 guidelines
- Stand out from the crowd** and have your businesses listed on the Directory
- Efficiently** store & update your business compliance information all in one place
- Save time** during the contracting period by providing your checklist instead of filling out countless forms

The Aim

The **aim** of the new platform is to promote tourism operators who comply with New Zealand's Regulations and who have a COVID Health & Safety Plan. In particular, to demonstrate you are **COVID-Ready to host visitors. In the future there will be increased demand from international visitors and offshore clients for suppliers** and ITOs to demonstrate health and safety is a priority in the business. The checklist allows operators to easily upload their information to a directory, which is then accessed by ITOs. Any supplier working with ITOs will be strongly encouraged to sign-up to the Checklist so there is confidence for ITOs to include your business in future itineraries.

The Tourism Trade Checklist is the same as what ITOs and tourism suppliers are using in Australia. This will be helpful when both countries reopen their borders. It will allow us to remain competitive but also to provide reassurance for any traveller planning a dual destination trip. Our thanks to ATEC for their support and willingness to partner with TECNZ on this initiative.

WTTC Safe Travels Stamp

Once you have submitted all documentation including a COVID Health & Safety Plan, your business will **receive two badges and a World Travel & Tourism Council (WTTC) Safe Travel stamp**. Logos can be used on email signatures, websites and any other communication tools you might have.

Why sign up?

"These days travellers are concerned about their health and well-being more than ever. Having such a professional and efficient centralised resource endorses our commitment to the client, as a dedicated Inbound Tour Operator, by working with those Supplier partners that we trust"

General Travel NZ

"Many of our overseas trade partners will now only use suppliers with who we have written agreements stating that all H & S and regulatory requirements have been and continue to be met. The TEC NZ Tourism Trade Checklist portal offers an efficient and time saving alternative to suppliers as opposed to having to negotiate and complete agreements with multiple ITOs"
